

Dr. Fabian Kohlmann

Chief Executive Officer

GDAC-SA Tender Role: Managing Director | Global PaleoDEM Development Expert | 15+ Years Halliburton | Saudi Arabia Experience | Neflex Product Lead

Chief Executive Officer

GDAC-SA Tender Role

Managing Director | Global PaleoDEM Development Expert | 15+ Years Halliburton | Saudi Arabia Experience | Neflex Product Lead

Current Position

Managing Director

Lithodat Pty Ltd | Melbourne, Australia 2024 - Present

- Strategic leadership and overall company direction
- Driving company vision and growth strategy
- Leading GDAC-SA tender response and international business development
- Industry-recognized leader in data geosciences and exploration data solutions

Director

Lithodat Pty Ltd | Melbourne, Australia 2019 - 2024 (5 years)

- Co-founded Lithodat with focus on geoscience data management
- Built company from startup to established consultancy
- Developed core product strategy and client relationships
- Technical leadership for all major projects

Core Expertise

- Petroleum Geodynamics & Basin Analysis
- Petroleum Systems Modeling
- Structural Geology & Tectonics
- Geoscience Software Development
- Team Leadership & Mentoring
- Client Relations & Business Development

Key Professional Experience

Product Lead - Neflex Geodynamics

Halliburton | United Kingdom 2015 - 2019 (4 years)

- Led global product development for Neflex geodynamics suite
- Managed international team of geoscientists and developers
- Defined product roadmap based on client needs and market analysis
- Direct client engagement for major oil & gas companies globally
- Responsibility for product P&L and strategic direction

Senior Geodynamics Specialist

Halliburton (Neflex) | United Kingdom 2010 - 2015 (5 years)

- Advanced petroleum systems modeling and basin analysis
- Client-facing technical consulting for major exploration projects
- Developed innovative workflows for basin evaluation
- Training and mentoring of junior geoscientists
- Contributed to software development and QA processes

Geodynamics Specialist

Halliburton (Neflex) | United Kingdom 2005 - 2010 (5 years)

- Petroleum systems modeling for diverse basins globally
- Structural restoration and kinematic modeling
- Integration of geophysical and geological data
- Client project delivery and technical support
- Development of best practices and methodologies

Education

PhD - Structural Geology

University of Adelaide | Adelaide, Australia 2001 - 2005

- Thesis focused on structural controls on petroleum systems
- Advanced research in basin analysis and tectonics
- Published research in peer-reviewed journals

Master of Science (MSc) - Geology/Earth Science

Ludwig-Maximilians-Universität München | Munich, Germany 1999 - 2003

- General Geology/Earth Science

BSc (Hons) - Geology

University of Adelaide | Adelaide, Australia 1997 - 2000

- First Class Honours in Geology
- Strong foundation in structural geology and tectonics

Technical Skills

- **Geodynamics Software:** Expert in basin modeling, structural restoration, petroleum systems analysis
- **GIS & Mapping:** Advanced GIS skills, geological mapping, spatial analysis
- **Programming:** Experience with Python, SQL, geoscience software development
- **Data Management:** Geoscience data workflows, quality control, database design
- **Project Management:** Team leadership, client engagement, project delivery

Geographic Expertise

- **Primary:** Australia, Southeast Asia, Middle East (including Saudi Arabia)
- **Secondary:** North Sea, North Africa, South America
- **Global Experience:** Worked on projects across all major petroleum basins

Relevance to GDAC-SA Tender

- **Strategic Leadership:** Managing Director with proven track record building Lithodat from startup to established consultancy
- **Halliburton Connection:** 15+ years at Halliburton (NefTex) - same company background as Dr. Qusay Abeed, ensuring cultural fit and shared methodology
- **Product Leadership:** Led global geodynamics product line - brings product management expertise critical for platform development
- **Saudi Arabia Experience:** Direct experience working with Saudi clients and understanding of regional geology
- **Global Perspective:** International experience across UK, Norway, Australia, the Americas, Europe and ANZ
- **International Network:** Extensive connections with major oil & gas companies and geological surveys globally
- **Technical Excellence:** PhD in Structural Geology from University of Adelaide - strong academic foundation
- **Software Development:** Background in geoscience software development - bridges geology and technology
- **Team Builder:** Proven ability to build and lead technical teams across multiple countries
- **Business Acumen:** Successfully grew Lithodat while maintaining technical excellence - balances business and technical priorities
